

FPT Digital Retail (FRT)

Long Chau expanding into small localities

Analyst Nguyen Hoang Duy Anh anhnhd@kbsec.com.vn (+84) 24-7303-5333

March 4, 2025

4Q24 NPAT rebounded from loss in 4Q23

In 4Q24, FPT Digital Retail (FRT) recorded net revenue of VND11,492 billion (+21.8% YoY), of which online revenue reached VND2,124 billion (+31.1% YoY). Gross profit hit VND2,074 billion, equivalent to a GPM of 18.1% (+0.6ppts YoY). NPAT strived from the loss of VND103 billion in 4Q23 to VND133.9 billion.

Long Chau Pharmacy and Vaccination Center keeps launching new stores Long Chau pharmacy chain brought in VND7,225 billion in revenue (+52.9% YoY) with average sales per store of VND 1.2 billion/month and 94 new pharmacies. NPAT of the chain is estimated at VND116 billion, which was an impressive rebound from 4Q23 loss of VND15 billion. In addition, the number of vaccination centers in 4Q hit 126 units, covering 54 provinces and cities nationwide. FRT is one of the pioneering vaccination centers providing new vaccines in the local market.

FPT Shop recorded profit growth for two straight quarters

At the end of 4Q, FPT Shop's net sales hit VND4,222 billion (-6.5% YoY), GPM rose 1.6ppts YoY to 12.9%, and average sales per store reached VND2.2 billion, the highest level since the beginning of the year. Thanks to the comprehensive restructuring strategy as well as the trial conversion of FPT Shop stores into the electronics model, FPTshop continued to record NPAT of VND 18 billion.

Valuation: BUY rating - Target price VND218,200/share

We forecast FRT's 2025 net revenue and NPAT should reach VND47,268 billion (+17.9% YoY) and VND816 billion. Considering the potential of Long Chau and the ambition of FRT to expand the healthcare ecosystem, we recommend BUY for FRT shares for 2025 with a target price of VND218,200, 21.5% higher than the price on March 4, 2025.

Revenue composition (2024)

Business operation

FPT Digital Retail JSC (FRT), founded in 2012, is a subsidiary of FPT Corporation and operates two major retail chains: FPT Shop and FPT Long Chau. FPT Shop specializes in the sale of smartphones and laptops, holding a market share of approximately 15–20% and ranking second in the industry. FPT Long Chau, a pharmaceutical retail chain, is the first in its sector to achieve profitability and holds the largest market share, estimated at 30%.

Source: FPT Digital Retail, KB Securities Vietnam

Investment Catalysts

FPT Shop is testing the conversion of its regular store model to an electronics store. Adding electronics to its product portfolio helps the chain increase its gross margin.

FRT develops a healthcare ecosystem. In the long term, the ecosystem is oriented to include diagnosis and treatment, purchasing medicine at pharmacies, providing healthcare services at home and health insurance.

The amended and supplemented law allows online medicine trading, creating a new playing field for retail pharmacies.

4Q24 performance updates

FRT completed 108% of 2024 revenue target

In 2024, FRT recorded net revenue of VND40,104 billion (+25.9% YoY). NPAT recovered strongly to VND408 billion from the loss of VND329 billion in the same period, underpinned by FPT Shop and Long Chau. The effective restructuring strategy helped FPT Shop return to profit of VND169 billion and at the same time, the Long Chau chain continued to be the main growth driver of FRT, contributing 62.3% to the company's total revenue with VND24,978 billion (+59.5% YoY). In addition, online revenue of the two chains reached VND7,165 billion, equivalent to a growth rate of 23.0% YoY.

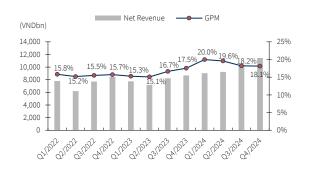

Table 1. FRT - 2024 updated results

(VNDbn)	4Q23	4Q24	+/-%YoY	2023	2024	+/-%YoY	Notes

4 ★ KB Securities | VIETNAM

FPT Shop converted traditional stores to electronics stores

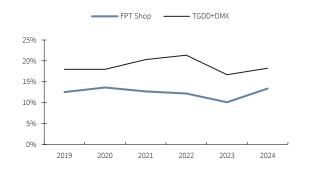

By the end of 2024, FPT Shop completed the restructuring process by cutting 121 ineffective stores. Therefore, KBSV believes that by 2025, the total number of stores in the chain will remain unchanged compared to 2024 (643 stores). However, BoD will convert some traditional stores (focusing on selling ICT products such as smartphones, tablets, and laptops) to electronics stores (combining the sale of additional electronics products in addition to ICT products). This will benefit FPT Shop as follows:

- (1) Raising revenue: By diversifying the product portfolio, FPT Shop is also expanding its target customer base. The sales per store in 4Q surged 38.9% YTD right after the company tested the new model, although most of it came from the launch of the new Iphone product line.
- (2) Improving GPM: As CE products often have higher GPMs than ICT's. The TGDD+DMX chain has a GPM 6.3% higher than that of the FPT Shop (Figure 8) thanks to the opening of both ICT&CE product lines with the proportion of CE stores reaching 66.5% (Figure 9) while FPT Shop only reached 8.5% by the end of 2024.
- (3) Taking advantage of existing human resources: By integrating new products into existing stores, FPT Shop will not incur additional labor costs or invest in new stores but can also take advantage of existing customer bases.

KBSV estimates that with the positive impacts of the above strategy, FPT Shop chain's revenue in 2025 will reach VND15,258 billion (+0.9% YoY) with a GPM of 13.8%, equivalent to an increase of 0.4ppts YoY.

Long Chau chain continues to expand its network of pharmacies and vaccination centers

6

Long Chau pharmacies: KBSV maintains the same view as the previous report that the chain will open 400 new pharmacies in 2025. However, we see that Long Chau's new target market from 2025 will only focus on small cities and provinces because it has covered large cities in three regions of the country. Therefore, we have some adjustments as follows: (1) Sales per store in 2025 should decrease by 2.7% YoY due to the lower population size and average income in small cities than in large cities, leading to a decrease in the number of customers and spending. (2) Store repair costs may be lower as newly opened pharmacies in small cities will cover smaller area (according to the Management), and the rents will also be lower.

Long Chau vaccination centers: KBSV maintains the same view as the previous report that the chain will open 100 new centers in 2025 as Long Chau vaccination center is being developed according to the Pharmacy-based model and the model is considered successful as every five or six pharmacies will have a vaccination center in that area. By the end of 2024, Long Chau will have 126 vaccination centers with a ratio of 15 pharmacies/vaccination center and the break-even time for these new stores is less than one year. KBSV estimates that with the above assumptions, Long Chau chain's revenue in 2025 may hit VND32,009 billion (+28.1% YoY), of which revenue from Long Chau vaccination center accounts for 6.9%. The number of pharmacies and vaccination centers may reach 2,343 pharmacies and 226 vaccination centers, respectively.

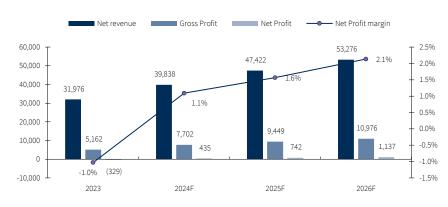

Forecast & valuation

Table 10. FRT - 2024A-2026F business performance

(VNDbn)	2024	2025F	+/-%YoY	2026F	+/-%YoY	Assumptions

Valuation: BUY rating – Target

price: VND218,200

We value FRT shares using SOTP method:

- (1) For the FPT Shop chain, we used the FCFE method. We derive a target equity value for the FPT Shop chain of VND2,036 billion.
- (2) For the FPT Long Chau chain, we used a reasonable target P/S of 1.15x based on the historical P/S of major pharmacy chains in China. We consider this valuation relatively conservative compared to the historical multiples of these chains, which often exceeded 2x during their IPO periods. We benchmark Long Chau against Chinese pharmacy chains due to economic, social, and demographic similarities as well as comparable business models. Like Long Chau, Chinese chains primarily focus on selling medicines and health supplements. In contrast, pharmacy chains in developed markets like the US and Europe operate in larger store formats, offering a broader range of products, including cosmetics, personal care items, and motherand-baby products, similar to the Pharmacity chain. Given these parallels, we find the valuation multiples of Chinese pharmacy chains to be a suitable benchmark for Long Chau.

We recommend BUY for FRT shares for 2025 with a target price of VND218,200/share, 21.5% higher than the closing price on March 4, 2025, expecting that Long Chau pharmacy chain will continue its growth and complete its healthcare ecosystem.
